

Science Education and Students with Disabilities

Master of Science in Education

This program leads to a master's degree in Science Education. Upon completion of additional requirements, candidates will be eligible to receive New York State Dual Certification in Science Education and Student with Disabilities Grades 7-12 to teach one or more of the following sciences: Biology, Chemistry, Earth Science, General Science, and Physics.

ADMISSIONS REQUIREMENTS

- Official transcripts from **all** post-secondary institutions attended
 - Have attained a bachelor's degree (or its equivalent) from an accredited college or university
 - Have attained an overall of 3.0 or better. Above average achievement in academic work and in the teaching specialization required
- Submit two letters of recommendation, at least one of which is from a college or university science instructor
- A 500-word essay outlining intellectual and academic interests, accomplishments, and career objectives
- **For Sequence 4 Admission:** An undergraduate science major
- **For Sequence 6 Admission:** An undergraduate science major
- Personal interview
- Satisfy appropriate voice, speech, and health standards

To be eligible for the Science Education Master's Program, potential students must fall into one of the following categories:

- **Sequence 4 (43-45 credits):**
 - For candidates with an undergraduate science major with no previous secondary education coursework and an interest in dual Science Education 7-12 and Students with Disabilities, grades 7-12
- **Sequence 6 (48-50 credits):**
 - For candidates seeking New York state alternative Transitional B dual certification in Science Education and Students with Disabilities, grades 7-12
