

- The Bio Department does not give permission for repeating any biology courses.
- To repeat a biology course, submit an electronic Course Repeat Request online via your Lehman 360.
- On your Lehman 360 Dashboard on the left-hand side, you will see “Course Repeat Request”. Once you click on it you will select “New Request” and complete the requested information.
- After the request is submitted it will be forwarded to the respective advisement unit for approval and then sent to our office for processing.
- For additional questions contact the Office of the Registrar.
