To: The Lehman College Community

From: Fausto Ramirez,
Director of Public Safety

Subject: **E-Bikes, E-Scooters, E-Batteries Prohibited Inside Campus Buildings**

This is a reminder to the college community that E-bikes, E-scooters, E-batteries, and gas-powered bikes are strictly prohibited inside campus buildings due to safety risks. These devices pose significant hazards, including the potential for fires and explosions, which create substantial safety concerns for both the college community and visitors.

E-bikes, E-scooters, batteries, and any similar devices used for transportation may not be stored, maintained, or charged inside campus buildings, tunnels, or common areas.

Please be aware that if any prohibited devices are found on campus, they will be confiscated by Public Safety Officers and may be referred to College administration for further action.

To support our campus commuters and take reasonable precautions, bike racks are conveniently available throughout the campus, located near campus gates, for secure parking of your transportation devices.

Thank you for your cooperation in maintaining a safe campus environment.
