

# Locating Scholarly Articles Online using Google Scholar, PubMed and New York Public Library

A Workshop for CUNY Institute for Health Equity  
SUMMIT Program  
Migration and Health | Human Rights Perspective | Challenges and Opportunities  
December 6, 2023

Vanessa Arce  
Head of Reference

Robin Wright  
Health Sciences Librarian  
Leonard Lief Library, Lehman College

# Workshop Goals

As a result of this workshop we hope that you will:

- Understand that there is a wealth of scholarly information that is freely available online
- Familiarize yourself with some online resources you can use to locate those articles
- Learn some basics skills for efficient searching

# Today's Plan

- Introductions
- Discuss challenges to locating scholarly/research articles
- Basic searching: importance of keywords
- Demo of three resources
  - PubMed
  - Google Scholar
  - New York Public Library
- Practice activity

# Introductions

Please share:

- Your name and organization
- Why you signed up for this workshop

## **Finding and accessing research articles:**

What are the challenges you face?

# Searching basics: What you should know

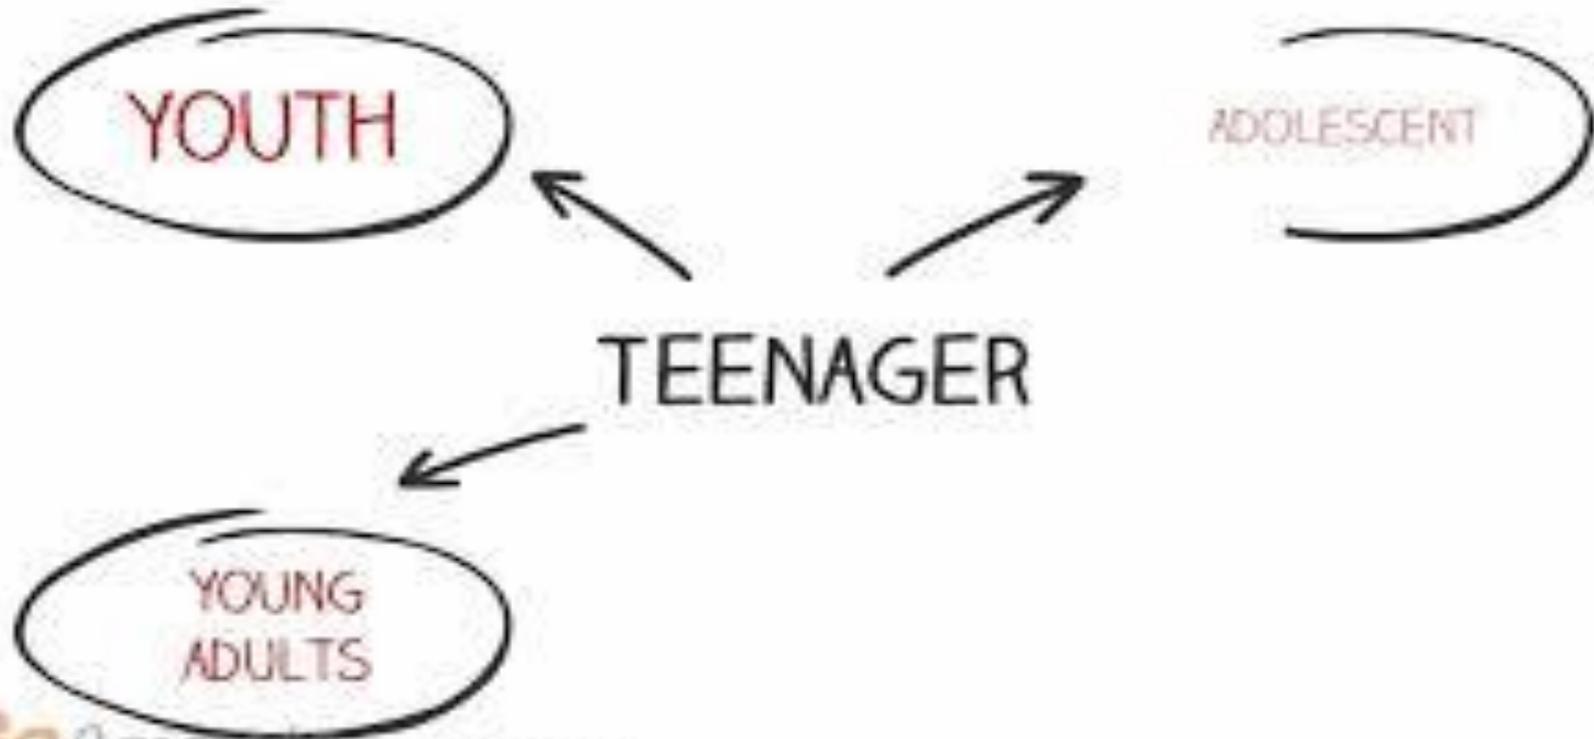

## Where to search?

- PubMed
- Google Scholar
- New York Public Library

## How to search?

- Break down your topic into its basic elements to use as search terms (aka keywords)
- Think of synonyms for your keywords
- Combine your keywords

# Using Keywords Video

# PubMed

# New York Public Library: Interlibrary Loan Service (ILL)

- Interlibrary loan is a service that allows users of one library to request items from another library
- Can be used to request electronic copies of articles
- NYPL provides this service to cardholders free of charge
- Instructions on how to place an ILL request via NYPL [here](#)

<https://www.nypl.org/help/research-services/interlibrary-loan#request>

# Practice Activity: Your turn now!

## Instructions

1. Go to one of the resources we discussed.
2. Do some searches on topics that are relevant to the work of your organization - remember to use keywords!
3. Look through the results and identify a freely available article that is relevant to your topic
4. Copy the citation information in the worksheet provided so you can find it again later
