

**DEPARTMENT OF NURSING
BACHELOR OF SCIENCE PROGRAM IN NURSING**

**RN TO B S CURRICULUM INFORMATION & PATTERN
REGISTERED NURSES (Licensed in New York State)**

The upper division nursing program, which leads to a B.S. degree, is designed to prepare for professional nursing practice and provide a foundation for graduate study in nursing. The program fulfills the requirements of the New York State Education Department, and is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>).

The program is a 37.5-credit major of the total 120 credits required for graduation. Independent study courses and honors projects are available to qualified students.

The program is designed for completion in 2 academic years of full-time study. The Department recommends that students complete their distribution and prerequisite courses prior to admission to the nursing program. CHE 114, 115, and HIN 268 (or their equivalents) must be completed prior to registration for any NUR courses. Similar to fully **online RN-BS** students, **traditional RN-BS** students have the option of taking many of the nursing courses online.

The clinical laboratory sections of the nursing courses for traditional RN-BS students are conducted in the diverse and culturally rich clinical facilities in the Bronx, Westchester, Manhattan and other surrounding communities. The **online RN-BS** students have a clinical component determined by the course faculty. Memoranda of understanding and contract agreements are in place between each assigned agency and the College in order to maintain quality practice experiences for students.

Graduates of the program will have gained the knowledge and experience to function independently as well as collaboratively with other members of the health team. Graduates will have sharpened their skills in critical thinking and have the ability to provide competent and compassionate care to assist individuals and families in achieving maximum levels of health.

RN applicants to the Lehman College baccalaureate nursing program must apply for admission to the College to gain acceptance to the program.

Graduates of Associate Degree programs should follow directions for transfer students when applying to the college.

Graduates of hospital (diploma) schools of nursing who have not earned previous college credits should follow directions for new applicants to the college. Graduates of diploma nursing programs are encouraged to take the Excelsior College (formerly Regents College) exams to earn advanced standing credits in Adult Nursing, Maternal and Child Nursing and Psychiatric Mental Health Nursing to earn advance standing credits.

It is recommended that all RN students seek advisement in the Office of Academic Advisement, Shuster Hall, Room 280, in addition to advisement in the nursing department. Registered nurses may pursue either full-time or part-time study.

PREREQUISITES

1. Current Registered Nurse with an unencumbered nursing licensure and registration in New York State.
2. Sixty (60) college credits with a grade point average of 2.5 or greater; or an associate degree in nursing from a CUNY or SUNY school
3. Official transcript(s) from all schools attended which also exhibits evidence of a college course in chemistry, or chemistry taken in a state approved nursing program (or its foreign equivalent), or successful completion of the following courses at Lehman College:

CHE 114: Essentials of General Chemistry: 3 Credits

CHE 115: Essentials of General Chemistry Lab: 1.5 Credits

Foundation Course*

HIN 268: Human Growth and Development: 3 Credits (or equivalent course which covers growth and development through the life span.)

NUR COURSES FOR REGISTERED NURSES:

The distribution of courses and credits to be earned by all R.N. majors is as follows:

In Foundation:

HIN 269: Analysis & Action for Community Health: 3 Credits

In Nursing Courses

NUR 300	Nursing as a Human Science	3 Credits
NUR 302	Ways of Knowing in Nursing	3 Credits
NUR 400	Professional Nursing Practice	6 Credits
NUR 406	Clinical Decision Making	3 Credits
NUR 408	Trends & Issues in Nursing & Health Care	3 Credits
NUR 409	Therapeutic Intervention IV	6 Credits
NUR 410	Professional Nursing Management	3 Credits

*Some students may qualify to earn credits for the Human Growth and Development course through validation examination. Students must seek advisement in the Department of Nursing for this process.

Advising, Course Permission, Registration: All nursing courses require permission from a Nursing Advisor before you can register. The advising schedule changes every semester. Log into CUNYfirst to view course availability. Check the *Online Nursing Advising Schedule (to meet via Zoom)* on the Nursing website

Requirements for Clinical Course Attendance

Before taking any clinical courses, you will be required to submit proof of current Physical Exam, Malpractice Liability Insurance, and CPR training for healthcare providers to the Nursing Department no later than 2-weeks before the first day of classes. Students will not be given permission to register for a clinical course until the above documents are received. Please be prepared to submit all documents and required copies at the same time as follows:

- The original copy of the Nursing Department's Health Clearance form (go to Undergraduate Documents and Forms site above to download) including any lab reports, completed and signed by your healthcare provider
- One copy of the policy certificate for your malpractice liability insurance
- One copy of both sides of your signed CPR card for healthcare providers

These requirements must be current at the time you submit them, and remain current without lapse for the duration of your clinical course(s). It is your responsibility to monitor expiration dates of your clinical requirements and documents, to renew these requirements so that they to remain current, and to submit the renewed documents to the Nursing Department before they expire. Keep your own personal copies of these documents.
