

MINOR IN EARTH SCIENCE

Earth, Environmental, and Geospatial Sciences

Our new Earth Science Minor consists of 13 credits in four courses on Earth Science, Geographic Information Systems and Remote Sensing. Three courses are computer-oriented, where students will use ArcGIS Pro, Python and ENVI software to analyze and visualize digital Earth Science data and maps. This minor can be useful as an addition to Computer Science or other majors.

Earth Science Minor Required Courses (13 Credits)

GEO170 Earth Science and Society (3 credits)

GEP204 Basic Mapping: Applications and Analysis (3 credits)

GEO360 Earth Data Models and Analysis (3credits)

GEP321 Introduction to Remote Sensing (4 credits)
