Program Review for MA Liberal Studies

Development of Action Steps

General Comment:

The reviewer described the program as a "gem." She believed that the program is a strong one and has opportunities for growth.

Commendations:

- 1. Lehman College's Master's Program in Liberal Studies (MALS) is a "Bronx gem."
- 2. The program advances students in their careers and develops students' critical thinking, research, and writing skills enhanced enough to advance students into doctoral programs
- 3. SCPS is an "excellent host" for the MALS program
- 4. The Program's cohort model is a strength
- 5. High (80%) student satisfaction with the Program's core requirements and electives
- 6. High retention (sic) rate (completion rate, as the footnoted piece deals with attrition)
- 7. Committed faculty

Identified Issues:

- 1. Support services were rated somewhat lower than the program's core requirements and electives by students
- 2. MALS has not been regularly assessed

Recommendations:

more effectively through SCPS, including its annual catalogue and Workforce Education programs.

Work with Enrollment Management and Graduate Admissions to improve MALS recruitment efforts.

Spring 2024:

Post videotaped student and alumni testimonials on MALS website

Work with Lehman's Veterans and Military Affairs Office to reach out to that population

Work with the Lehman Administration, the Writing Center and other Lehman MA programs to introduce graduatelevel tutoring.

Encourage BLIS majors to enroll in one or two graduate-level courses in their senior year, which they can transfer into MALS (repeat each semester).

Send email blast to ADP alumni (February) with link to new website (repeat each spring)

Fall 2024: Build on self-study report to establish a

| | | | | database with student demographics, alumni activities, course selection, and departmental contact information, which can be used by future academic directors. |
|--|----------|--|--------------|---|
| a) Use of e-portfolios b) Use assessment results to review learning objectives (700-level courses) | Issue #2 | Cost: N.A. for now C. Quirke (reviewer) is skeptical of the cost-benefits of e-portfolios. Will be considered in the future after evaluating other assessment work. Could be revisited. | Dean Program | Fall 2023: Consult with OAEE about best practices for assessment and appropriate strategies for MALS Fall 2024: Continue first round of assessment, focusing on required courses. Spring 2025: Building on results of first round of assessment, develop best practices for core classes (including model syllabi), which can be circulated to faculty who teach such courses. Initiate second round of assessment, focusing on courses that are cross-listed with undergraduate courses. Form a MALSAC subcommittee (including faculty who have taught such courses) to develop rubrics and evaluate student performance. Fall 2025: |

| | | | | Initiate third round of assessment, focusing on student capstone projects. Form a MALSAC subcommittee (including faculty who have advised capstones) to develop rubrics and evaluate student performance. Building on results of second round of assessment, develop best practices for 700-level electives that meet with undergraduate courses, which can be circulated to department chairs and faculty who teach such courses. Spring 2026: Building on results |

| 3. Curriculum and Student Support: d) Teaching & Learning Commons: Development of professional resources for graduate students' research and inquiry skills | Opportunity for growth and Issue #1 | | Provost Dean Program | available for other participating MA programs, e.g. Social Studies Education, English Education, History and English). Spring 2024: Discuss with relevant stakeholders (perhaps in collaboration with the Graduate Studies Committee) planning the T&L Commons the ability to incorporate graduate teaching into the Center. Fall 2024: Work with Lehman administration to incorporate graduate education into the proposed new Teaching and Learning Commons |
|---|-------------------------------------|---|----------------------------|---|
| a) Establish minimum requirements in undergraduate courses (new 700-level topics courses) b) Development of a succession plan for when a new Graduate Director will be needed. Development of systems, information, etc., can be started now. c) Reinstitute the MALS Advisory Committee and integrate it into the College's governance processes | Opportunity for growth | Minimum requirements will follow assessment discussions (year 2). | Dean Program OAEE | Fall 2023: Reconvene MALS Advisory Committee and hold meeting to discuss marketing, curriculum, assessment, and a possible annual lecture series featuring MALS faculty and alumni (October) Fall 2024: A deputy director will join the program. The appointment of a deputy director will be key in the succession planning. |
